

Raspberry (Mocktail) Mojito

Mocktail Mojitos are so easy to make. You will need 4 ingredients to make this virgin raspberry mojito recipe.

1. **Raspberries.** If you use frozen raspberries, thaw them before using. If you use fresh raspberries to make this mojito mocktail recipe use at least 3 cups of raspberries.
2. **Fresh mint leaves.**
3. **Lime.**
4. **Sprite or 7-Up.**

Add the raspberries and mint leaves to a large pitcher.

Using a muddle or the back of a wooden spoon, muddle until the raspberries have released their juices and the mint leaves have wilted.

Pro tip: If using thawed (previously frozen) raspberries, the raspberries will most likely be juicy and not as plump. Muddling won't be a necessary for the raspberries; however, you'll want to focus on muddling the mint leaves to extract their mint flavor into the drink.

After the raspberries have been muddled (don't make it a raspberry puree... it's ok to keep some of the raspberries in chunks), add the lime juice to the pitcher.

Pour in the Sprite or 7-UP.

Stir.

Add ice if you'd like. ENJOY!
